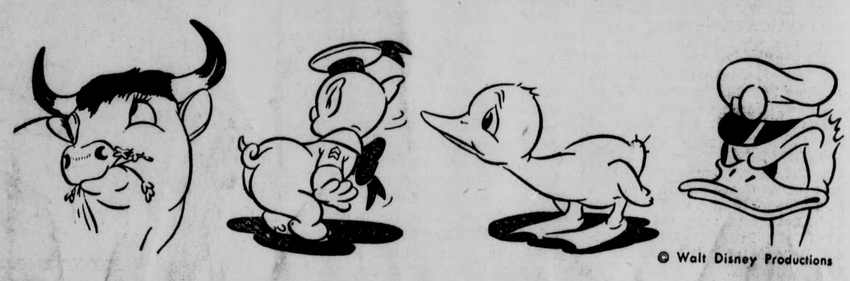
Snow White Comes to Fox Sequoia



© Walt Disney Productions

Walt Disney Festival of Hits

Walt Disney's most widely acclaimed productions form the screen presentation which has been deemed the happiest event of the season. "Snow White and the Seven Dwarfs," "Ferdinand the Bull," the Three Little Pigs in "The Practical Pig," "The Ugly Duckling" and "Donald's Lucky Day" are included in the great Walt Disney Festival, all RKO Radio releases, which are at the Fox Sequoia now. "Bad Men of Missouri" is the other feature attraction.

Organizers For Air Raid Group Named

With the seven organizers for San Mateo County's part in the state air raid warning system now selected, instructions regarding actual steps in organization were being awaited today from the commanding general or March Field, Riverside.

Organizers in every county, including San Mateo, will be given until Oct. 10 to complete their preparations in the warning system, stated Earl P. Wilsey, temporary co-ordinator of the San Mateo County Defense Council.

The organizers and the area in which they must arrange the establishment of observation stations are:

B. L. Werder (Redwood City)—Woodside, La Honda and Butano.

Louis Belloni (South San Francisco)—Brisbane.

Louis Lengsfeld (San Mateo)—Millbrae, County Point, Belmont and Crystal Springs.

M. J. Bettencourt (Half Moon Bay)—San Gregorio and Purissima.

Ray T. Higgins (Sharp Park)—Sharp Park, Montara and Princeton.

Thomas Kearney (Menlo Park)—Menlo Park and Dumbarton.

William Dresbach (Pescadero)—Pescadero, Pigeon Point and Point Ano Nuevo.

Each observer will be charged with the duties of selecting location for observation stations in his area—to watch for the approach of enemy planes—and of selecting chief observers for each post. The observers will select 14 civilian volunteers as watchers for each station.

Minimum use of first and second gear increases gasoline mileage, the Department of Commerce says.

Arizona's 50,000 Indians are divided into 14 tribes, each with its own social, economic and cultural background.

Vacant House Is Damaged By Blaze

Flames did extensive damage to a vacant house at 723 Arguello St. shortly after 11 o'clock this morning. The unfurnished house, owned by Dr. Roy G. Labochotte, local chiropractor, is just north of his office building at the corner of Arguello St. and Brewster Ave.

Mr. and Mrs. Labochotte were cleaning weeds from a vacant lot on the north side of the house and had a trash fire going when passersby saw smoke leaking through the shingles of the house. Apparently the fire had a good start before it was discovered, and the roof and attic were seriously damaged. Under the direction of Chief Mark E. Ryan, firemen removed shingles from the roof and extinguished the blaze.

Whether the flames started from sparks blown onto the roof from the trash fire, or were caused by defective wiring, was not known. The fire seemed to have started in the attic, rather than on top of the roof. The rental house was insured.

The price of harmonicas, formerly imported from Germany, Czechoslovakia, and Japan has risen 30 to 40 per cent.

Damage Suit Filed For Crash Injuries

Injuries suffered when the car in which he was riding was involved in a collision at Brisbane last July 16 are the basis of a damage suit filed by Manuel Lopez, Brisbane stevedore, against Emmons McClung, asking $10,375 damages. The crash occurred on Monterey St. and Visitacion Ave.

Kremlin, in Russian, means Citadel.

PUBLIC NOTICE

Frank Loughran, Atty.
NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE
No. 58432, Dept. No. 10

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE CITY AND COUNTY OF SAN FRANCISCO.

In the Matter of the Estate of THOMAS LOUGHRAN, Deceased.

NOTICE IS HEREBY GIVEN that the undersigned, FRANK P. LOUGHRAN, Administrator of the Estate of Thomas Loughran, Deceased, will sell at private sale to the highest bidder, subject to confirmation by said Superior Court, on or after the 8th day of September, 1941, at the office of Frank Loughran, attorney for said administrator, at Room 419 Kohl Building, situated at the corner of California and Montgomery Streets, San Francisco, California, all the right, title, and interest of said deceased, at the time of his death, and all the right, title, and interest which said estate has acquired by operation of law or otherwise in addition to that of said deceased at the time of his death, in and to those certain lots or parcels of land, situated in the City of Redwood City, County of San Mateo, State of California, particularly described as follows, to-wit:

Lots 101, 103, 105 and 106, as designated on the map entitled "MAP No. 1 OF SUBDIVISIN No. 2 OF A PORTION OF WELLESLEY PARK SAN MATEO CO. CALIFORNIA," which map was filed in the office of the Recorder of the County of San Mateo, State of California, on June 20, 1890, in Book "B" of Maps at page 46 and a copy entered in Book 1 of Maps at page 78.

EXCEPTING from said Lot 106 the Southeasterly 10 feet thereof, as described in Deed to F. C. Brandenburg, dated August 13th, 1931, and recorded August 12th, 1931, in Book 531 of Official Records of San Mateo County at page 373.

Terms and Conditions of Sale: Cash in lawful money of the United States; ten per cent of the amount bid to be paid upon acceptance of bid, to be returned to bidder if such bid be not confirmed by said Superior Court; balance on confirmation of sale by said Superior Court.

All offers or bids for said property must be in writing and may be left at the office of said Frank Loughran, Room 419 Kohl Building, situated at the corner of California and Montgomery Streets, San Francisco, California, or filed in the office of the Clerk of said Superior Court, at any time after the first publication of this notice and before making said sale.

Dated: August 21st, 1941.

FRANK P. LOUGHRAN, Administrator.

FRANK LOUGHRAN,
Attorney for Administrator of said Estate,
419 Kohl Building,
San Francisco, Calif.

Registration Figures Point To New Gains

Enrollments in local public schools will be slightly larger this year than last year, it was indicated on Tuesday afternoon when first registration figures were made available by school authorities.

Tentative estimates at Sequoia High School set at 1720 the number of students who crowded the academic halls there this morning to enroll for the fall term. This number compares favorably with the 1704 who reported to Sequoia on the opening day of last year. An increase of approximately 100 additional students is expected during the next 10 days to bring the total to a figure slightly exceeding last year's 1816, reported on the 10th day of the fall term.

Similar increases were reported in Redwood City elementary schools, with the first tabulation of enrollees reaching 1918, as against 1911 last year. This figure does not include an estimated 140 kindergarten pupils. An increase of about 100 more students is expected in the elementary schools, as in the high school, to bring enrollments to a figure exceeding last year's 2023 enrollment on Sept. 16.

As San Carlos School completed its first regular schedule of classes for the year, enrollment figures stood at 624, Supt. Clark Robinson reported. As in other schools, a substantial increase is expected within the next few days, adding to the already large growth over last year's enrollment, which was estimated to average only about 450 the first month of the 1940 fall term.

Supt. A. C. Argo reported that registration at Sequoia Union High School "proceeded very smoothly" and expressed appreciation for the help of student commissioners, who acted as welcoming agents for freshmen, guides in the hall and performed numerous other duties.

First all-school event of the year, the annual Sequoia registration dance, has been scheduled for Friday evening, Sept. 12, at the gymnasium. Preliminary plans have also been made for opening assemblies soon.

'Bud' Durham Trains With RAF Fliers

John N. (Bud) Durnham, one of Redwood City's young fliers, now is training for active duty with the Royal Air force. Durnham, who spent several months in naval air training, recently transferred to the British Service and now is completing his training at a base "Somewhere in Canada." He is the son of Mr. and Mrs. H. B. Durnham, 29 Clinton St.

Chicken pies made or sold in Los Angeles County, Calif., must now contain chicken. If made of veal, they must be so labeled.

SLIDE BLOCKS HIGHWAY

The Coast Hwy. has been reopened to traffic following a slide which blocked it between Thornton Beach and Mussel Rock Sunday. The roadway was buried under sand and rock for a distance of about 100 feet. Traffic was diverted when the first rocks started tumbling onto the highway, and possible accidents were thus averted.

Increase of 81 Per Cent Recorded on First Night

Redwood City adults are more school-minded this year than last year. Such was the indication given Tuesday, at any rate, when evening class enrollments at Sequoia High School soared to an all-time high of an 81 per cent increase over that of the opening night of last year.

When Principal S. S. Mayo finished stacking enrollment cards which covered his desk at the close of a hectic two hours, he found that a total of 212 persons had registered in comparison with 117 last year. Although more will register nightly, bringing the total to an anticipated figure of 1800 as against last year's 1508, Mayo points out that some classes will soon be filled and urges enrollments as early as possible.

Whether or not women are smarter than men is still a moot question, but they soon will be if one can rely on figures showing that 133 women enrolled last night as compared with only 79 men.

TYPING POPULAR

Typing proved the most popular attraction, drawing 46 prospective students. Sewing was next in order and that class will soon be filled, Mayo said, making it necessary to establish a waiting list. Other subjects in the order of their popularity last night were shorthand, citizenship, women's physical education and woodshop. Substantial interest was also manifest in badminton, swimming, Spanish, public speaking, English, bookkeeping, pottery and flower arrangement.

All other adults wishing to take any one of 36 subjects still open are invited to obtain full details at the high school. A single $1 enrollment fee covers all courses.

An enrollment of 419 pupils was recorded at the two Menlo Park schools yesterday. This figure is a gain of 26 over the 1940-41 peak and more registrations are expected within the next 10 days. Fremont School registered 139 as compared with 123 total last year and Central School registered 280, 10 more than last year's top figure. Forty-two children enrolled for kindergarten.

RAVENSWOOD GAINS

Ravenswood School in East Palo Alto registered 408 students yesterday as compared with the 1940-41 peak of 400. Late entries are expected to swell the total considerably. Thirty-eight enrolled in kindergarten, a distinct increase over previous years, and 370 in the elementary grades. Seventy-five of the grammar school pupils are new to the school.

The new cafeteria at Ravenswood School served its first meal yesterday with 80 pupils taking advantage of the lunch provisions. Mrs. A. F. Kienitz is in charge of the new service.

Registration at Las Lomitas School was 150, approximately the same as last year, but additional enrollments in the next two weeks are expected to bring the total above the 1940-41 figure.

Conducting the Redwood City Tribune's Better Home and Garden Institute Study.

It is with pleasure the Tribune presents to local home and garden lovers the advice and help of Mrs. Watkins. Many homemakers who have been puzzled over just what is right for a certain type of garden color scheme, a type of wall paper or drapery plan for a sunny or dark interior will not have to worry their way through this problem. Mrs. Watkins will correspond with those interested in her service which of course is paid for by the members of the institute whose aim is better living and better comfort in home and garden arrangements.

Furniture Emphasizes Patriotic Theme

The trend toward definitely American design, workmanship and materials is evidenced by the Federal American grouping shown above—a style that combines elegance and comfort. The sofa is a reproduction of a Duncan Phyfe original. The accent on America is reflected in the turned legs, sperad eagle, stars and crossed flags. Colors are a vivid blush, a new blue, and "greige," a harmonious blend of gray and beige.

Pair Up New Furniture

Two interesting pieces of furniture designed to be used together are a mahogany credenza bookcase with a large drawer and two metal-grilled doors, and metal posts in the sides.

Unusual Occasional Chair

A colorful occasional chair is one whose horse-shoe shaped back and seat are upholstered in powderblue leatherette studded with silver colored tacks around the back and sides.

A Clean Case For Beauty

A fresh, American-beauty look is more than a happenstance, according to Olive Cawley, popular magazine cover girl. She has that alert, wideawake type of beauty for which American girls are known.

She recommends a shining, "twice-clean" look. She has a regular regimen for beauty and the first rule is to get eight hours of sleep.

Up-to-Date Motifs On Juvenile Suites

Juvenile bedroom suites which will be useful for many years to come are being shown in ever more attractive styles.

One current example is the "Convoy" suite, made in honey-colored birch, with decalcomanias of two ducks riding the waves in a washtub. Another suite has the fronts of the dresser, etc., enameled in white, and the top and side surfaces in pink. Running over the front is a frisky lamb. Drawer-pulls are small wooden balls.

Made of a light plastic which resembles airplane luggage, and trimmed in brushed steel, a "Stratoliner" ensemble is one of the most popular right now. The dresser has a sunken panel whose door-pull is a small steel airplane, and "landing places" are plotted on the blue panel with red glass. Safety rails on the bed are upholstered in blue leather, and the head of the bed has red and white rudders on each side. The foot has a metal propeller. Red tail light reflectors are on the bases of all pieces. The chest has sliding shelves in the bottom compartments. A pilot's desk with built-in radio and a red and white swivel stool may also be used with this suite.

BOXSPRINGS ON LEGS

The names Hollywood beds, decorator beds and headboard beds all apply to the same thing—box springs on legs with headboards attached. Because of their simplicity and decorative possibilities, they are rapidly increasing in popularity.

Cabinet Member Harold L. Ickes once was a newspaper reporter.

Buying Furniture? Watch These Rules

1. Buy according to size of your rooms. Massive pieces are out of place in small rooms, or vice versa.
2. Buy on quality first, on price last, when possible.
3. Demand exact description of woods and veneers.
4. Examine wood construction and springs of upholstered furniture.
5. Mattresses and box springs should be guaranteed to have sag-proof edges.
6. Furniture in one room should not all be of the same height or size. If you have plenty of low chairs and a sofa, let one new piece be tall.
7. Skip top-heavy little tables with unsteady legs. Top and legs should be in correct proportion. Otherwise table will wobble.
8. Short, squatty lamps seldom provide good reading light.

Cheap Carpets Are Poor Investment

There are innumerable ways of adding life to a room at small expense. One must be careful to correctly estimate the proportionate value of the furnishings.

For instance, in some cases an inexpensive item may give satisfactory appearance and wear, but in others, it is thrifty to invest a little more, thereby eliminating the necessity of an early replacement.

This is particularly true of floor coverings and considering the wide range of patterns in each quality, there is no excuse for not having your floors just as attractive and correct as they can be.

The floor covering market abounds with 18th century florals, tone-on-tone rugs and plain carpets. The two-tone rug is practical since it lends itself well to any number of room schemes of various periods or styles.

Color and Size of Flowers Depend Upon Their Diets

Flowers and vegetables of first quality can only be produced when the plants have abundant nourishment. Size, color, vigor and yield are all affected by feeding to a marked degree. The heaviest feeding should always be earliest, for it is at the start of their growth that plants most need stimulation. As they grow stronger and larger, they are better able to forge for themselves.

Spring-flowering bulbs, herbaceous perennials, annuals and roses all benefit from a regular feeding program. Here is a feeding schedule to remind you when to feed your flowers.

Spring-flowering bulbs: Such as tulips, narcissus and hyacinths. Feed in early Spring when foliage appears, at rate of one heaping teaspoon to one square foot of space surrounding plant. Keep away from stalk of plant and work into soil. Repeat application when buds start to appear.

Established perennials: Such as iris and peonies. Feed in early Spring before plants appear, broadcasting plant food on the surface of the soil at the rate of one rounded tablespoonful to the square foot of space. If plants have already made their appearance, keep plant food away from the new shoots. Water in well. Give a second feeding when the buds appear.

Roses: Feed in the early Spring, at the rate of one rounded tablespoonful to each square foot of space around the bush. It is important that this first application be made as soon as the roses start growth. When the first color shows in the buds, make a second feeding of half this quantity. Feed every 30 days until the middle of August.

Annuals sown directly in beds: Prepare the seedbed thoroughly and apply a pint of complete plant food to 30 square feet of surface area. Rake this lightly into the soil, mixing well, before sowing seed. When buds appear, feed again, giving half this amount.

Annuals transplanted from flats or cold frame: You may apply the plant food when preparing the beds, as directed above for annuals sown where they are to remain; or you may mix thoroughly one level tablespoonful of complete plant food with the soil in the bottom of the hole, before setting out the plant. Feed again when buds appear.

BEAUTY IN YOUR HOME

BEAUTY in your home starts and ends with cleanliness. If you want to keep your home clean remember Hoover is the only cleaner that gives you, not one, but ten essential home-cleaning advantages.

A full-size Hoover for only $48.50, and your old cleaner.

The greatest value Hoover has ever offered.

Low Temperature New Way To Cook

It's surprising what results you can get with low temperature cooking and baking on the new CP (Certified Performance) gas ranges.

Heat is kept at an even temperature on top burners, oven and broiler. Of course, you can maintain that heat at any temperature you desire, but for juicy roasts, cake, bread, coffee cakes, and the like, try low temperature baking, top burner simmering and slow broiling, and watch results.

If you are still using your old stove you are playing a hit-and-miss game with your cooking. You answer the telephone, chat a moment too long, and the vegetables scorch, the cake burns, or the roast shrinks until you simply can't recognize it.

Crabgrass Robs Lawns Of Luster and Color

Despite everything the home owner is able to do about it, the job of keeping a lawn looking green and fresh seems to be a hopeless task.

All over California lawns that should be beautiful lack luster and color that would make them things of beauty instead of something that is designed just to keep the dust down.

In many mases the disappointing appearance of lawns is not the fault of the people who take care of them, because much hard work and a lot of fertilizer often is expended on a lawn that refuses to be beautiful.

For lawns that "behave" this way, there are two causes and each of them may be cured. And the result is a lawn that becomes a green velvet carpet that is healthy, colorful and fresh.

The two hazards that make lawns unsightly are crabgrass and the rhizoctonia fungus that popularly is known as brown patch disease.

Most Californians are familiar with crabgrass and some make no effort to keep it out of their lawns. It really is a weed and during the season of the year that it is green, it makes little difference in the appearance of the lawn. But in the Fall, when the crabgrass begins to turn brown, the appearance of the lawn suffers considerably.

Crabgrass is an annual and its seeds are carried to lawns by wind and by the feet of birds, animals and humans. The grass of plants that have been in the lawn also provides more seed for a new crop in the same lawn.

The remedy for crabgrass is simple:

If you haven't any in your lawn now, then learn what it looks like right away. Pull, cut, dig, do anything, but destroy it now before it produces those seeds for you to cope with next year.

Drag a light rake in front of the lawn mower (special rakes to attach to the mower are available, and excellent too for removing many of the wild grasses also) each time you cut the lawn making a special effort to keep the seeds cut off while green and unviable.

To those whose lawns are well infested with a seemingly impossible amount of crabgrass there is now at least a ray of hope.

Even the dense growth of this weed does not injure the roots of the original perennial grasses which survive any but total shade or smothering, so it is possible now to employ a selective chemical weed killer to destroy one and permit the revival of the other.

The field of chemical weed controls for lawns is fast passing the experimental stage, as witness several nationally advertized products now available.

Clip Carpet Tufts

If tufts or pile occasionally appear loose on the surface or your rug or carpet, they should be clipped to pile height with a sharp shears. Do not attempt to pull them out.

Electric Ironer Makes the Job Easy

A new idea has revolutionized and simplified one of the most dreaded days in any housewife's week—ironing day! This is the modern electric ironer! No greater boon was ever invented for any household!

Today the bride may sit down comfortably to her ironing. With no undue exertion she merely feeds the clothes through and the machine does the work. And such work! Thermostatic heat controls make it impossible to scorch or burn the daintiest garment.

CHINTZ IS VERSATILE

Chintz is one of the most versatile of summer fabrics. The woman who is clever with a needle will find innumerable uses for it. Be sure, however, that the chintz you purchase is the type with a permanent glazed finish and will launder perfectly.

Home Sales Set Record

With employment in defense industries as well as in the general business field zooming to the highest levels in many years, buying and building interests in homes costing less than $6000 today is shattering records of the past two decades, with the greatest increase yet to come.

This is the gratifying picture presenting itself on all fronts throughout the San Francisco Peninsula as reflected in unprecedented public response to model home showings, openings of new subdivisions, mounting sales of sites and completed houses and in formative plans of privately financed, single-family defense housing soon to rise in this area with governmental blessing.

MENLO PARK NEWS NOTES

St. Joseph's Parochial School opened for the fall term on Sept. 2 with the largest enrollment in the history of the school. No more pupils can be admitted this semester. The institution is considered the finest in the county and enjoys a splendid reputation among the higher academies of learning.

Mrs. Catherine Derry has returned from the Ancient Order of Hibernians convention at San Jose. Mrs. Derry has been a member of Columbia Division No. 2 of San Francisco for over 25 years and a delegate to annual meetings for more than 20 years.

James T. O'Keefe Jr. and his wife have returned from a vacation of two weeks spent at Lake Tahoe.

Edward O'Keefe and Joseph McLaughlin sought the wheat fields at Gilroy on the opening day of the dove season. Both secured the limit.

A "Week in Old Menlo" will be celebrated from Sept. 8 to 13 with fun and gaiety. The town has already assumed a holiday atmosphere as brightly colored banners and flags are displayed along the business portion of the town. Old Timers have grown full sets of whiskers reminiscent of the "Gay Nineties." Bob Cain has raised a fine crop and has the admiration of all the ladies. The Old Timers Dinner on Monday evening will be attended by pioneers who have resided in Menlo Park for 50 years and are 70 years or over The dinner is to be given by the Native Daughters. A big program of events will furnish fun and excitement for all. A dance on Saturday night will end the celebration.

Joseph J. McShane, who maintains a summer home at Atherton, has been appointed secretary of the State Board of Prison Directors at a salary of $300 a month. It is only a part time position, so that McShane will not be compelled to give up his lucrative law practice. McShane has long been active in Democratic politics. He is a past president of the Native Sons.

Mr. and Mrs. Vincent P. Sexton and their two children, Jackie and Richard, spent the Labor Day weekend with Mr. Sexton's aunt, Mrs. J. E. Weeden.

Isabelle Weeden Lundquist and her daughter, Emma Roberta, spent the week in Sacramento visiting the state fair. Billy Lundquist went with a party of Sequoia High School friends on Sunday and met them there.

The NDGW gave a shower to Past President Jane O'Callahan on Tuesday night in Masonic Temple.

REAL ESTATE SOLD

Edward R. Martin, San Mateo real estate man, has sold two large parcels of lots in the Parrott Park subdivision in San Mateo. J. B. Oswald, San Mateo builder, purchased 16 lots. Revenue stamps affixed to the deed, recorded by County Recorder T. Clark Rice, indicate a sale price of about $22,000. Ten lots were purchased by H. Bliss Rucker at a reported price of $15,000. Both deeds were recorded for the California Pacific Title Co.

Charts of coastal waters are prepared and printed by the Department of Commerce.

Wilson, N. C., is said to have the largest curb market in the country.

Forecasts are issued by the Weather Bureau, Department of Commerce, 2 to 4 times daily.

Local CCC Worker At Alaskan Airport

Iceland isn't the only outpost at which Redwood City youths are serving their country. Bill Allured, son of Mrs. Estelle Gray Allured, made that clear in a letter he wrote to her from his base near Ketchikan, Alaska.

Bill is attached to the Civilian Conservation Corps company in Ketchikan and he and his fellow CCC enrolees are busy constructing one of the finest airports in the Northwest.

The runway at the big port was completed recently, Allured writes, and the biggest thrill he and the other men at the station experienced in a long time was the first landing of an army bomber on the strip that they built at the station.

San Mateo Elks Boost Air Enlistments

SAN MATEO—Under the slogan "Keep 'Em Flying," the national drive to enlist unmarried men between 20 and 26 in the U. S. Army Air Corps entered San Mateo County Wednesday with an open meeting under the auspices of the San Mateo Elks at 8:15 in the Elks Lodge.

Designed to attract flying cadets into the government air service, the meeting featured a talk on national defense by Lieut. Col. G. L. Perkins of the district recruiting office, ninth corps area, and sound motion pictures just released by the army showing mass flying, dive bombing and other aerial maneuvers.

The flying cadet move is part of a national movement organized under leadership of the Elks' national organization.

More than 12,000 air corps pilots are to be trained by the War Department during the current fiscal year, and in fulfillment of that objective many new recruits are needed.

Navy Office Favors P.A. Defense School

Official approval of the proposed defense training school which the Palo Alto Unified School District is contemplating at the Jack-Heintz plant on Middlefield Rd., near Palo Alto, has been given by the office of the supervisors of shipbuilding, U. S. Navy.

The school contemplates courses in training for defense crafts, particularly for metal workers, in the area around Moffett Field. This district includes the area between San Mateo and San Jose.

Announcements regarding the courses are expected to be made within a short time. One suggestion made by the government in regard to the school's operation may make it possible for high school students to enroll in classes and receive full credit toward graduation for the courses taken.

Murphy, N. C., is nearer to six other state capitals than it is to its own capital, Raleigh.

Bristles for camel's hair brushes come from the ears of oxen, not from camels.

American tourists spent about $110,000,000 in Canada last year, says the Department of Commerce.

Patent Office, Department of Commerce, receives applications for patents relating to everything made and used by man.

Completed in 1906, the British battleship Dreadnought gave its name to all battleships of this type.

83 YEARS OF SERVICE TO HOMES AND INDUSTRY

Johns-Manville Journal JOHNS MANVILLE JM PRODUCTS

We're Helping Customers, Too

Shortage of some raw materials, delays in obtaining others because of priorities and the necessity of filling government orders have made it difficult in some instances for Johns-Manville to meet the demands of regular customers.

Naturally, defense needs come first But everything possible is being done to keep J-M customers supplied with the products they need.

At all J-M plants ways and means of increasing production are constantly being studied and operations are carefully scheduled to help relieve this situation. At the company's General Headquarters in New York, the Forecasting and Scheduling Department is coordinating sales and production. And the entire sales force is trying to accommodate customers, bearing in mind the all-important job of fulfilling defense requirements without interference or delay.

Fortunately, with few exceptions, the company has been able to meet the customers even if there have been occasional delays over which Johns-Manville has no control. And J-M hopes that it will be able to continue to do so.

WELL-PROTECTED COWS—At the Bronx Zoo many New Yorkers get their first opportunity to see what kind of a creature provides them with the milk they drink. The cows are protected from the blazing New York sun by shelters, such as the one shown above, roofed with fireproof J-M Asbestos Shingles. The shingles were chosen for their beauty, ease of application, economy and because they are fireproof.

DO YOU KNOW

That the name "Waukegan" is an Indian word meaning "Little Fort."

In this Illinois city is located one of Johns-Manville's largest plants.

At one time it was a French Trading Post called "Little Fort."

Johns-Manville's "asbestos barn" protects farmers against fire loss and upkeep expense.

J-M asbestos-cement Transite, Flexboard and Rock Wool are used to build new or remodel existing barns.

J-M Takes On Another Job To Speed National Defense

Will Operate Huge Shell-Loading Plant for Uncle Sam

Answering another call of Uncle Sam the J-M Management has enlisted on another front. This front is near Parsons, Kansas, where J-M will build and operate a gigantic shell-loading plant.

This plant will cover 25 square miles comprise about 400 buildings, 75 miles of track and 100 miles of road. It will be owned by Uncle Sam and will cost him about $27,000,000.

The new plant will employ about 8,000 workers.

It's a whale of a job for American defense, and J-M tackles it with vim, knowing that all J-M friends and jobholders will take pride in the company's new patriotic assignment.

J-M management gladly takes on this grave responsibility and is rolling up its sleeves for many hours of extra work each day.

When Uncle Sam first asked us to undertake this job we told him our present plants are already operating seven days a week, 24 hours a day, and about half our present production is for defense purposes, but that we would study the proposal and see if we could do a real job with it.

Our duty required us to do everthing in our power to protect our country from danger. So we signed for the new task "for the duration."

And "for the duration" all of J-M will be out on the front line delivering the goods with the rest of American industry.

autumn Fashion Festival AT WARDS

Let yourself go this Fall! Wards are brimming with colorful, exciting new clothes at prices you can afford! Come look at our "shirtwaist" coats. Try on a dress with that new two-piece look . . . see what a swooping profile-beret does for your courage. Treat yourself to a whole new Fall wardrobe! (Yes, do! Any purchase of $10 or more opens a Time Payment Account!)

THE NEW HATS REALLY cover YOUR HEAD!

—but only in back! Swooping brims or berets show your profile, pompadours ride high. Rayon velvet, felt. 1.98

THE "shirtwaist" COAT IS BIG NEWS FOR FALL!

We like it so much, we have it three ways—tweed, plaid or fleece! New boxy casuals, too . . . with softer shoulders, slightly lower armholes. 14.98

PUMPS LOOK PETITE WITH pug toes

You'll love 'em in brown crushed leather with 'gator-grain trim! Pug toes make 'em look tiny, give you lots of wiggle room! 1.98

FALL'S NEW GLOVES ARE lady-like

. . . neat and simple! Just a fancy stitch here—a slim dart there! In velvety sueded cotton or rayon! Only 79¢

THE bigger YOUR HANDBAG THE BETTER!

Tuck a huge genuine leather bag under your arm for shopping . . . a dressy rayon faille for those special dates! 2.98

IN DRESSES IT'S THAT two-piece LOOK . . .

Some really are two-piecers, others just look it. Peplums, belts, tucks do the trick! Rayons, corduroys. 3.98

Acquisition of Huddart Park Area, County Beach Development Is Voted

San Mateo County's effort to turn over a large part of its recreation land to the state was crowned with success this week when the State Park Commission, following an extended inspection tour, voted to accept Huddart Park and several county beach areas into the state's park system.

Announcement of the state's acceptance of the proposal was made this morning by Arthur V. Swift, Redwood City member of the state commission, who has sponsored the program before his group.

SWIFT PLEASED

Indicating considerable pleasure that the state has accepted ownership and operation of 973-acre Huddart Park as a unit in the state park system, Swift said:

"I believe that Huddart Park, when it finally is developed, will be the finest park in the state system and the people of California have gained something particularly worthwhile in its being taken over by the state."

Action of the commission in regard to acquisition of county beach lands included agreement to buy private lands on the coast that would augment beaches owned by the county and thus greatly extend the public beach facilities in that area.

Swift said that some time would have to elapse before the state actually assumed operation of either the Huddart Park or beach areas because legal technicalities such as the clearing of titles, etc. He said, however, that only formalities of this type now remained to be carried out before the state would actually be in possession of the areas.

Huddart Park, located near Woodside, came into the county's possession through terms of the will of the late James Huddart.

The Huddart property, according to the proposal for its development, as presented to the state park board by Swift, will be improved to include camp sites, riding and hiking trails and similar facilities, all of which can be installed easily on the property.

State engineers will take charge of the development on the basis of plans formulated by the county planning commission and Frederic Perl, coordinator for the State Division of Parks.

The beach layout, according to action of the state board, will provide for eight miles of public beaches on the Coastside when the program is put into operation. These beaches will be at Montera and Half Moon Bay and from San Gregorio southward to the county line. It will put 15 per cent of the county's coastline into public ownership.

COST ESTIMATES

No estimate of the cost of operation of the beaches or the Huddart Park property were made but it was indicated that the cost of acquiring new beach lands will be between $35,000 and $40,000.

The park commissioners held their weekend meeting in San Mateo County as guests of the county board of supervisors, each of whom was present at the tour of county recreational areas on Saturday.

The tour started at Coyote Point and took in Huddart Park area, following which the inspection party, numbering about 45 persons, went to Thornton Beach and then had luncheon at Princeton. The tour then proceeded to Arroyo de los Frijoles and up San Gregorio Creek to Troutmere where the commission spent Saturday night.

The official meeting of the board was held Sunday.

During his major league career, "Muddy" Ruel, famous catcher, hit only four home runs, one for every 1127 times at bat.

Canned Chop Suey Is Easy To Serve

Perhaps you are one who does not yet know that chop suey and chow mein can now be bought in cans—ready to heat and serve. You should know too that you can get these Chinese delicacies in a most delicious form, the real Chinese kind. These foods are prepared in one of America's most up-to-date food plants by American men and women according to American standards.

Chop suey and chow mein will be a treat for your guests and family. Everybody loves these dishes, and you'll enjoy the freedom from fuss and bother that go with most party menus.

If you prefer you can make your own chop suey in your kitchen in just about 10 minutes time. To make sub kum chop suey or chow mein you need a can of LaChoy mixed vegetables. This can contains succulent bamboo shoots, bean sprouts, water chestnuts, mushrooms and sweet peppers. They come sliced and proportioned correctly. Simply add a little fresh or leftover meat, and some celery and onion according to the recipe on the can. You'll need LaChoy soy sauce to make the dish complete.

Lions Will Sponsor Chest Slogan Contest

Sponsorship of a contest that will establish a slogan for the forthcoming Redwood City Community Chest drive was undertaken by the Lions Club at its meeting last night. A prize of $10 will be given to the writer of the winning slogan. Details of the contest will be announced later by Fred Walker, chairman of the contest committee.

At the club's meeting, arrangements were completed for a ladies' night and barbecue event for Wednesday, Sept. 10. Dancing and a program of entertainment will be provided.

Kiwanis Club Hears Member of Assembly

Although the spotlight of public attention has shifted from state politics to Washington and to the European battlefields, California's huge state budget is of vital importance to all taxpayers—and all citizens are directly or indirectly taxpayers—Assemblyman Byrl R. Salsman of Santa Clara told the Redwood City Kiwanis Club.

State relief is a tough problem for the legislators, the assemblyman said — particularly the issue of cash doles for able-bodied, unemployed men. The governor and legislature have not been able to agree on this subject. A budget agency accountable to the legislature is needed to work out the budget, salsman asserted.

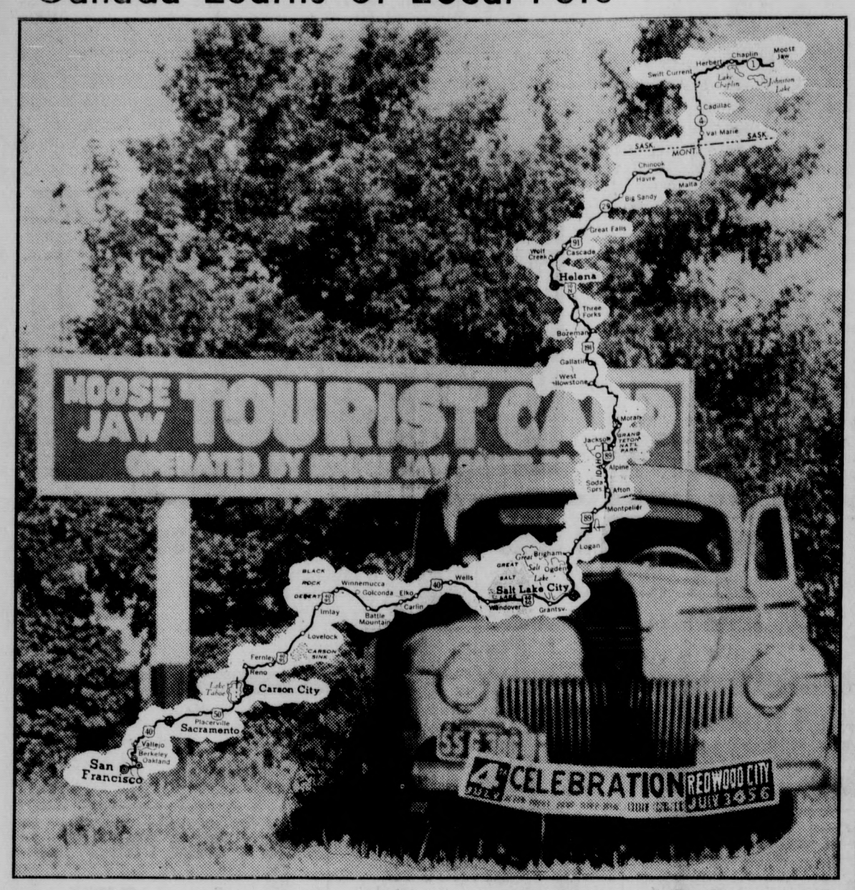
Canada Learns of Local Fete



Bumper strips, provided by the July 4 Celebration Committee when the local event was being advertised early this Summer, carried publicity on the Redwood City fiesta to the far corners of the Pacific Coast. Something of a record, however, was established by the strip on C. A. Rebitt's car. Rebitt, a former resident of Redwood City and now a San Franciscan, snapped this picture of his car at Moose Jaw, Sask., after a long trek into Canada.

Watters' Band Will Feature Local Singer

Recreation Director Alfred (Red) Morton and Joseph Primeau, member of the dance committee, are making plans for a capacity crowd at the season's final outdoor dance at Recreation Center Saturday night. Morton and Primeau jointly head up the committee which has been in charge of this Summer's series of fortnightly dances by big name bands, although many individuals, including members of various service clubs, have worked hard with Morton and Primeau to make the dances a success.

Lu Watters and his popular dance band will be playing a repeat program this Saturday night, and a feature of the entertainment will be the appearance of a Redwood City girl, Miss Josephene Giannini, who will make her debut as vocalist with a big name band. Miss Giannini, daughter of Mr. and Mrs. Thomas Giannini, has sung over the radio several times and has had several offers to take up singing professionally.

With the last dance scheduled for the Saturday preceding Admission Day, Sept. 9, Morton and Primeau said patrons will be encouraged to "dress up" in fiesta costumes in keeping with the celebration of California's entrance into statehood. The committee will be dressed in assorted costumes depicting '49ers, Spanish grandees and cowboys.

A pound of coffee contains approximately 3850 beans.

Library Facilities Geared To Needs of Younger Students

A paradise for young bookworms—that's one way of describing the John Gill Room for Boys and Girls at the Redwood City Public Library which again resumed a full school-time schedule with the opening of local classrooms.

Hours in this pleasant, book-lined room—filled with 7680 volumes ranging from "Alice in Wonderland" to the "Book of Knowledge" — will remain the same as last Winter's, according to Miss Wilhelmina Harper, librarian. Children may have free access to the library from 2 to 6 p.m. weekdays and 10 a.m. to 5 p.m. on Saturdays. Any child from the second grade up may take out as many as four books at a time for two-week periods, with renewal privileges.

Small tables and chairs "just the right size," low shelves, bright displays of new story books, wicker chairs by the fireplace—all combine to make this room a favorite gathering place for local youngsters.

INSTRUCTIVE BOOKS

Also back on a school-time basis this week will be the young people's room, where action-packed, easy-to-read and instructive books designed to interest students in the first two years of high school are segregated. There special attention is given to the problems of adolescence and every effort exerted to make this room a pleasurable "stepping stone" to fine adult reading.

Upper classmen at Sequoia High School will again have the full co-operation of librarians and use of all the library's facilities, Miss Harper said.

Even the tiny tots too young too read have not been neglected in the long-range program. One of the most popular sections of the library is the special "Family Reading Shelf," where mothers and fathers may find story and picture books for pre-school age children.

GROUP CO-OPERATION

In addition to the varied and detailed work of serving hundreds of young readers individually, the library lends books singly and in groups to all Redwood City schools as needed and co-operates with elementary, parish, high school and evening schools in many other ways.

At least once a week the children's librarian, Mrs. Janet Lauer, contacts the schools with a book review, talk or some other special event. Such features as National Book Week observances and the weekly story-telling hour at the library also play their part in making children "book conscious."

Asked how she accounts for the phenomenal popularity of the John Gill Room, whose membership represents almost 100 per cent of local school enrollments, Miss Harper smiled.

Armament has greatly increased world demand for special steels.
